Welcome to Aspen Court

Aspen Court was newly opened in 2021 as a residential home supporting five adults with complex autism, antisocial personality disorders, emotionally unstable personality disorders, attachment disorders, learning difficulties and ongoing mental conditions.

Created in partnership with the local authority and local commissioning groups, Aspen Court provides purpose-built accommodation that supports the Transforming Care Agenda, a project that aims to prevent and reduce hospital placements and support higher risk people to live in the community.

Here, there are two self-contained apartments with private gardens, kitchens, lounges, dining and laundry rooms, bedrooms, and bathrooms. There are a further three terraced houses also with their own private amenities.
